3. Collections (Principal Payments)

Represents the amount collected from debtors during the period. It decreases the notes receivable balance and may include both principal payments and interest income.

4. Write-offs

Any notes deemed uncollectible are written off, reducing the receivable balance. Write-offs are often based on collection efforts failure or confirmed defaults.

5. Adjustments

Includes any other changes affecting the notes receivable balance, such as reclassifications, foreign currency adjustments, or corrections of errors.

6. Ending Balance

The calculated balance of notes receivable at the end of the period after accounting for all additions, collections, write-offs, and adjustments.
